

# INDUSTRIAL SPRAY BOOTH

Engineering  
the Highest finish

We have a wealth of experience in paint application in all areas of manufacturing. Whether it is a simple dry filter booth or a bespoke paint plant, our team can provide a turnkey solution to meet all your finishing needs.

Dalby have a wealth of experience in paint application plant for all areas of manufacturing, with specialisms in Aerospace, Rail, Marine, Plastic Parts and conveyerized lines. We are able to provide expert advice on a range of paint finishing equipment.

Whether it is a simple dry filter booth or a totally bespoke paint plant, Dalby's in house design, manufacturing and project management team are able to provide a turnkey solution for all your finishing needs.

With a broad base of clients ranging from, BAE Systems, Alstom Rail, Jaguar Land Rover, International Paints, and Thales Underwater Systems. Dalby have a pedigree in delivering bespoke, high performance, paint plant solutions to a wide range of customers and industries.

The key to supporting our clients and delivering these solutions is our consultative approach. We work with our clients from initial concept to developing a detailed design specification, ensuring the paint plant is fully integrated into their facility. Our experienced Project Management team will then manage the installation through to commissioning and handover ensuring clients needs are met.
